

NURS7023 Care of the Deteriorating or Acutely Unwell Adult (Semester 1)

[View Online](#)

This single level 7 practice related module provides students with the opportunity to develop a critical problem solving approach to the assessment and management of the deteriorating and acutely unwell adult. This module will enhance the students' assessment skills enabling them to recognise changes in a patients' clinical condition and communicate findings to colleagues in the multidisciplinary team. It will examine the management of these patients while implementing human factors principles to improve patient safety.
